POULTRY IS POWERFUL

Orezin+

COMPOSITION :

Orezin+ contains Oregano Oil, Mix of Natural Oils and powerful Zinc Oxide 5%.
Two phenolic compounds **Carvacrol** and **Thymol** > 80% in the composition.

Orezin+ is a 100% natural feed additive containing essential oil.

Orezin+ functions as antimicrobial by breaking down the proteins that bind the cell wall of bacteria. It helps to prevent necrotic enteritis and assist in controlling Coccidiosis by increasing cell turn over in the intentionally wall. It is an excellent appetite enhance and also shown to significantly increase intestinal, Enhances enzyme activity.

CARVACROL :

The most abundant phenol in oregano, it has been shown to stop the growth of different types of bacteria and also a wonderful support for Respiratory Disorder.

CARVACROL USES :

Many diverse activities of carvacrol such as Antimicrobial, Analgesic, Antispasmodic, Anti-Inflammatory, Antiparasitic, Insecticidal, Antihepatotoxic and Hepatoprotective activities.

POULTRY IS POWERFUL

Orezin+

ZINC OXIDE ADVANTAGES :

- Zinc is very useful in building immunity.
- Zinc helps in Cell division, Cell Growth
- Zinc is very powerful in healing the wounds
- Zinc is very powerful in protecting Birds from Wing Rot
- As per Field experience It is observed that if Zinc Oxide is given Oregano oil in chicks and growers, helps to a great extent in protecting from Dermatitis. (G.D.)

CHARACTERISTIC OF IDEAL ESSENTIAL OILS :

PROPERTIES :

- Neutral product
- Non Pathogenic
- Ensure gastric & bile secretions
- Epithelium or mucus attaching capability
- Persist in the intestinal tract
- Immune response regulation

POSITIVE INFLUENCES :

- Change intestinal microbiota
- Induce immune system
- Decrease inflammatory reactions
- Prevent pathogen proliferation
- Enhance animal performance
- Modify microbial activities

COMPOSITION :

Orezin+ a very powerful immunomodulator, gut acting anti bacterial product which also helps in fighting respiratory problems effectively.
